Professional Profile

Full Stack Developer with over 5 years of experience in web and mobile development, specializing in **Node.js / Python**, **Flutter** and **React/Angular**. I integrate **AI** into my workflow to automate certain tasks, strengthen **testing**, streamline **code validation** and **debugging**, and improve **software quality**. Autonomous, adaptable, and analytical, I am eager to contribute to innovative projects combining development, AI, and automation.

Technical Skills

Backend

- Node.js, Python
- REST API design and development
- Testing, documentation, Git best practices
- Technical analysis

Frontend

- React
- Angular
- HTML, CSS, JavaScript/TypeScript, Tailwind CSS

Databases

- MySQL, PostgreSQL, Oracle
- MongoDB (NoSQL)
- Supabase

Tools & Methods

- WordPress (Elementor)

AI Tools & Agents

- Familiar with Claude (Claude Code), ChatGPT, n8n (automation)

Mobile

- Flutter

Tools & Methods

- Git, GitHub / GitLab

Languages

- French (Fluent)
- English (Professional working proficiency)

Professional Experience

Node.js Developer & Technical Lead

APPS TECHNOLOGIES – August 2020 → 2025 - Backend application development, algorithms and features - Implementation of tests, documentation and Git management - Contribution to compliance with functional and technical specifications.

React / Python Developer

APPS TECHNOLOGIES – July 2026 → September 2026 - Development and enhancement of a wealth management application, with Python on the backend and React on the frontend. Used Claude Code as a development assistant to speed up implementation, improve code quality, generate and strengthen tests, streamline debugging, and make pre-delivery validation more reliable.

Flutter Developer

Honest Coders – September 2023 → September 2025 - Development of mobile applications based on client requirements - API integration and user experience optimization.

Education

Computer Science Engineering Degree (Master's level / 5-year degree)
École Nationale d'Informatique (ENI) – Fianarantsoa

Strengths

- Versatility & adaptability
- Strong listening skills
- Analytical mindset
- Quick learner
